

Liste d'attente CSMT 2023

N°	Prénom & Nom	Titre
01	Jihad Souissi	Relations différentielles vérifiées par les suites orthogonales de Jacobi
02	Sywar Belkahla	Asymptotic Behavior of Positive radial Solutions for Problems involving the φ -Laplacian operators with weights
03	Mustapha Amara	Étude des équations quasi-géostrophiques anisotropiques dans les espaces de Sobolev
04	Amira Sedki	Fuglede-Putnam Theorem for A-normal operators
05	Housseem Eddine Rezgui	One-dimensional dynamical systems without periodic points
06	Sana Salah	On a semi-linear fractional Dirichlet problem in an exterior domain
07	Rahma Jerbi	One-shot inversion method for a geometrical inverse problem
08	Asma Ben Saber	A Fast and stable multivariate orthogonal polynomials based nonparametric regression estimator
09	Ons Weslati	Uncertainty principles in term of supports associated to STFT
10	Khouloud Kordoghli	Identification du rôle du système de conduction rapide dans le maintien des arythmies cardiaques
11	Mohamed Hamrouni	Determining the potential and the gradient coupling of two-state quantum systems in an infinite waveguide
12	Chiraz Kroumi	Perturbation Results On Semi-Fredholm Linear Relations On Banach Spaces
13	Mohamed Amine Aouichaoui	On (k, m, n) -partial isometries in Hilbert spaces
