

Liste d'attente

N°	Prénom & Nom	Titre
01	Rached Jaidane	Non-autonomous weighted elliptic equations with double exponential growth
02	Ala Eddine Bahrouni	On some equation defined on the whole euclidean space \mathbb{R}^N and involving the $p(u)$ -Laplacian
03	Haifa Ben Fredj	Stratégie de contrôle de la vaccination impulsive pour la pandémie de Covid-19 basée sur le modèle SIAR retardé
04	Assil Fradi	Some characterization of classical orthogonal polynomials starting from Sylvester equation
05	Samia Elji	Asymptotic distribution of a fragmentation process via the contraction method
06	Sameh Bouaoun	Morphismes sur $C(X)$ avec X un compact
07	Mustapha Amara	Solution globale des équations quasi-géostrophiques anisotropes dans l'espace de Sobolev
08	Sonia Missaoui	Generalized Riemann-Liouville and Liouville-Caputo time fractional evolution equations associated to the fractional number
09	Asma Lahmar	Pseudo-generalized invertible operators
10	Jihad Souissi	Jacobi polynomials and some connection formulas in terms of the action of linear differential operators
11	Amira Sedki	Normality of multivariable operators in semi-Hilbertian space
12	Fatma Mahmoudi	(A,m) -partial isometries in semi-Hilbertian spaces
13	Marwa Missaoui	Stochastic Bernoulli equation on algebra of generalized functions
14	Sondes Msadek	Les suites de polynômes orthogonaux auto-associées modulo trois
15	Sywar Belkahla	Comportement asymptotique des solutions positives d'un système couplé
16	Chiraz Kroumi	Stability in Fredholm multivalued operators via the concept of measure of noncompactness

17	Housseem Achouri	Étude de la bifurcation de Bogdanov-Takens et du triple zéro d'une équation différentielle de type neutre à plusieurs retards
18	Mohamed Amine Aouichaoui	Sur les A-pseudo-isométries
19	Yosra Barkaoui	Local spectral theory of multivalued linear operators
20	Chiheb Ben Bechir	Quadratic approximation for some badly rational approximable power series
21	Khouloud Kordoghli	Existence and uniqueness for the 1d-3d specialized conduction system/myocardium coupled problem in cardiology
22	Rahma Jerbi	Identification of the singular support of an electrical conductivity
23	Abdellahi Soumaré	Varitional problem
24	Sana Salah	Fractional Dirichlet problem in an exterior domains
