

WORKSHOP ON NONLINEAR ANALYSIS:
RECENT ADVANCES AND NEW TRENDS

Monastir, May 25 - 28, 2016

Main Topics

Control theory and applications, Homogenization of Hamilton-Jacobi equation, Non linear partial differential equations, Numerical analysis, Traffic flow, Traveling waves.

Invited Speakers

Tahar Zamène Boulmezaoud (University of Versailles Saint Quentin En Yvelines)

Nicolas Forcadel (INSA de Rouen)

Mohamed-Amin Ghorbel (University of Sfax)

Contact: ghorbel@cermics.enpc.fr

Ahmad El Hajj (University of Compiegne)

Ahmed Hajjej (University Paris Dauphine)

Mondher Ben Jemaa (University of Sfax)

Mohamed Meselmani (University of Sfax)
